

**Part-Time Job Opportunity in Renewable Energy Consulting Firm**  
**Post Date: 1 March 2016**

Dax Energy Holdings SpA is seeking a part-time employee to work in our Santiago office, located near Plaza Perú in Las Condes. Dax Energy is a consulting and investment firm focused on the renewable energy sector in Chile, Argentina and Peru. Our strength lies in our experience in the Chilean and Latin American markets, the expertise of our team, and the key relationships that we have for all aspects of project development, PPA negotiations, financing, and construction.

Dax Energy is a start-up incorporated in December 2014; we are flexible and young organization that has signed consulting agreements with a list of large energy-focused clients from Germany, Japan, France and the US. We are also currently developing a large wind energy project in Argentina, plus considering select solar and wind energy investment opportunities in Chile.

We are seeking an intern to provide both support in overall business administration and research and project support for requests from our clients. The ideal candidate will have:

1. Interest in the energy, and specifically renewable energy, sector.
2. Business-level proficiency in English and Spanish.
3. Excellent computer skills, experience with website management a plus.
4. Ability and prioritize different types of tasks and complete them by given deadlines.
5. Excellent organizational skills.
6. A sense of humor (you'll need it to work with a Chilean and an Argentine).
7. Ability to integrate in a small team (two persons in the office) plus interact with a group of external consultants (lawyers, engineers, environmental consultants).
8. Related university degree, or be currently in university.

Hours: Approximately 10 hours per week, schedule to be determined by mutual agreement.

Location: Work must be done in Dax Energy's offices in Calle Don Carlos 2939, Las Condes.

Compensation: Commensurate with experience.

To Apply: Send CV and cover letter to [fernandof@dax-energy.com](mailto:fernandof@dax-energy.com) with copy to [admin@dax-energy.com](mailto:admin@dax-energy.com).
